OBJECT LESSON Beautiful Lights (An Offering Lesson)

MATERIALS: A string of Christmas lights and an extension cord (pre-plug cord into a working outlet)

SHOW: Hold-up unlit string of Christmas lights

SAY: Comment on how beautiful they are...what pretty colors...how bright...etc. Explain that the lights may not seem so beautiful to others, because they are not lit and are not yet performing to their full potential.

SHOW: Plug the string of Christmas lights into the extension cord

SAY: Explain that by plugging the lights into the right place, their beauty becomes evident to all, and they then perform to their full potential.

Compare this to plugging our money into the right places, such as tithe and offerings, so that it can perform to its potential and be a thing of beauty for all to see...
